Professional Summary

Full Stack Developer currently working at **The Roots Digital**, a software house, with hands-on experience in building scalable web and mobile applications. Strong focus on modern JavaScript frameworks, RESTful APIs, and cross-platform development. Comfortable across frontend, backend, and basic data handling workflows. Experienced with React, Next.js, React Native (Expo), Node.js, Express, and Django.

Technical Skills

- Frontend: React.js, Next.js, Tailwind CSS, Framer Motion, HTML, CSS, JavaScript
- Mobile: React Native (Expo)
- Backend: Node.js, Express.js, Python (Django)
- Databases: MongoDB, SQL
- APIs & Architecture: REST APIs, CORS, Authentication, Role-Based Access
- Data Handling: Python (Pandas, NumPy) – lightweight data analysis & reporting
- Tools & Platforms: Git, GitHub, Vite, Postman, Vercel

Professional Experience

Full Stack Developer – The Roots Digital (Software House)

- Developing and maintaining web and mobile applications for internal and client use.
- Building admin dashboards using React and modern UI stacks.
- Designing and implementing RESTful APIs using Node.js and Express.
- Working with MongoDB and SQL databases for application data storage.
- Collaborating with team members to deliver production-ready solutions.

Projects

Therootsdigital.com – Company Website

- Static corporate website developed for The Roots Digital.
- Built using Next.js with Tailwind CSS for styling and Framer Motion for animations.
- Optimized for performance, responsiveness, and clean UI/UX.

Employee Management System (EMS)

- Complete EMS solution developed for internal company use.
- Admin dashboard built with React (Vite).
- Backend implemented using Node.js and Express with proper CORS handling.
- Mobile application for employees developed using React Native (Expo).
- Integrated authentication, attendance tracking, and role-based access.
